

## Part 1.

1. Darth Vader's height - <https://swapi.dev/api/people/4>
2. Population of Alderaan - <https://swapi.dev/api/planets/2>
3. Millennium Falcon - <https://swapi.dev/api/starships/10/>
4. C3p0 species - <https://swapi.dev/api/species/2/>  
<https://swapi.dev/api/people/2>
5. Films starring obiwan - ["https://swapi.dev/api/films/1/"](https://swapi.dev/api/films/1/),  
["https://swapi.dev/api/films/2/"](https://swapi.dev/api/films/2/),  
["https://swapi.dev/api/films/3/"](https://swapi.dev/api/films/3/),  
["https://swapi.dev/api/films/4/"](https://swapi.dev/api/films/4/),  
["https://swapi.dev/api/films/5/"](https://swapi.dev/api/films/5/),  
["https://swapi.dev/api/films/6/"](https://swapi.dev/api/films/6/)
6. Search Millennium Falcon - <https://swapi.dev/api/starships/?search=falcon>

## Part 2.

1. Request sent: Body. It expects an object with a text key and a string value.
2. An array of the filtered post.
3. [practiceapi.devmountain.com/api/posts/155](http://practiceapi.devmountain.com/api/posts/155)
4. 200(continue) and 409(conflict).
5. URL: <http://practiceapi.devmountain.com/api/posts>  
Body: {  
    "text": "Kojo Boakye-Yiadom"  
}
6. <http://practiceapi.devmountain.com/api/posts/532>
7. <http://practiceapi.devmountain.com/api/posts/filter?text=blue>
8. application/json; charset=utf-8
9. Missing data in the query in the URL or missing data in the body.
10. Response was the entire list of text objects. Nothing significant happened.
